Dear Mr Beck

The Electricity Works (Environmental Impact Assessment) (Scotland) Regulations 2017

Operational life extension relating to Farr Wind Farm Farr Wind Farm, Kyllachy Estate, Near Inverness

Thank you for your consultation email which SEPA received on 13 May 2020 in connection with the Section 36 Variation to increase the operational life of Farr Wind Farm.

We have reviewed the submitted file notes and screening letter and can confirm that we would have no concerns regarding an extension in operational life to the existing planning permission (Ref: 02/00871/S36IN).

If you have any queries relating to this letter, please contact me by or e-mail at planning.dingwall@sepa.org.uk.

Yours sincerely

Laura Wilson
Senior Planning Officer
Planning Service

Disclaimer

This advice is given without prejudice to any decision made on elements of the proposal regulated by us, as such a decision may take into account factors not considered at this time. We prefer all the technical information required for any SEPA consents to be submitted at the same time as the planning or similar application. However, we consider it to be at the applicant's commercial risk if any significant changes required during the regulatory stage necessitate a further planning application or similar application and/or neighbour notification or advertising. We have relied on the accuracy and completeness of the information supplied to us in providing the above advice and can take no responsibility for incorrect data or interpretation, or omissions, in such information. If we have not referred to a particular issue in our response, it should not be assumed that there is no impact associated with that issue. For planning applications, if you did not specifically request advice on flood risk, then advice will not have been provided on this issue. Further information on our consultation arrangements generally can be found on our [website planning pages](#).
